

Our Services

Custom Maintenance Programs

SPRING CLEAN UP

Clean up and removal of leaves & debris from gardens and lawn.
Deadheading of any perennials or grasses left from the previous season.

GARDEN POWER EDGE RESTORATION

Mechanical edge restored along existing garden beds where gardens meet the lawn.

GARDEN SPADE EDGE RESTORATION

Provides a clean defined edge for mulch to roll into.
Provides a nice surface to run line trimmer along during routine mowing and trimming all season long!

HARD EDGE RESTORATION

Mechanical edge restored along driveways, sidewalks, patios and curbs where these hard edges meet the lawn.
Provides clean defined separation between hard surface and the adjacent lawn.
This makes routine hard edge maintenance look even better!

MULCH INSTALLATION

Top Dressing Gardens with Shredded Mulch (Black or Brown) 1/2" to 1" annually.
This not only freshens your landscapes appearance but helps combat weeds!

SEASONAL GARDEN WEEDING

Seasonal Garden weeding. We use a combination of pre-emergent controls, herbicide applications and hand pulling to reduce the overall presence of weed activity in your garden beds.

BIWEEKLY LANDSCAPE MAINTENANCE

Bi-weekly visits combining our Seasonal Garden Weeding service with other incidental maintenance tasks.
Visits can include some touch up on garden edges, incidental pruning of ornamental shrubs, touch up or turning of mulch and general clean-up of the gardens.

SEASONAL PRUNING

Ornamental shrub and tree (up to 15') pruning. Generally scheduled for 2 or 3 visits for strategically timed pruning of plants as seasonally appropriate for that visit specifically.

FALL CLEAN UP

Clean up and removal of leaves and debris from gardens and lawn. Deadheading of any expired perennials.
Cutting back of ornamental grasses (unless directed otherwise).
Generally scheduled for 3 visits to keep your gardens and lawn looking good throughout the Fall season.

Routine and strategically timed treatments include: Application of Mosquito Controls. Application of Tick Controls.

PEST CONTROL MATERIAL FOR *Lawn and Garden*

New York State Department of Environmental Conservation requires that pesticide applicators provide specific or approximate application dates. The owner or customer may ask for specific dates of application and if requested, the applicator or business must inform the owner or customer of the specific dates and include these dates in the contract.

Included is a list of program rounds and the services provided at each round. Also included is a list of pesticides the applicator or business may use and the warning label information from the manufacturer's labels.

We will send you updated prices and a schedule of approximate and alternate application dates each year, before providing service for the season. You may cancel or change this agreement at any time for any reason.

ROUND	APPROXIMATE DATES	ALTERNATE DATES
ROUND 1	APRIL 1 - APRIL 21	APRIL 22 - MAY 15
ROUND 2	MAY 4 - MAY 22	MAY 23 - JUNE 12
